ROHANTH S R

+91 8762598903 | rohanthsr18@gmail.com | LinkedIn | GitHub | Bengaluru, India

OBJECTIVE

Motivated MCA student with a strong foundation in Java, C, Data Structures, and Web Technologies, along with basic knowledge of Machine Learning and Data Science concepts such as data preprocessing, model training, and evaluation. Seeking an entry-level role where I can apply programming, analytical thinking, and problem-solving skills to develop data-driven and user-centric software solutions.

SKILLS

Programming	**:**	Python, Java, C, JavaScript, HTML, CSS, SQL
Core Concepts	:	Object-Oriented Programming, Data Structues and Algorithms
Machine Learning	:	Data Preprocessing, Linear Regression, Logistic Regression, Decision Trees, k-NN
Tools	:	Git & Github, Power BI, Tableau

EDUCATION

Master of Computer Applications (MCA)
Sir M. Visvesvaraya Institute of Technology, Bengaluru | CGPA: 8.2

Bachelor of Science (MCs)
PES Institute of Advanced Management Studies, Shivamogga | CGPA: 8.6

PUC
Govt. Pre University College, Channagiri | Percentage: 71.5

Class 10th
Sri Basava International School, Channagiri | Percentage: 73.16

EXPERIENCE

Spherenex Innovative Labs | AI and ML Intern **(Feb 2026 – Present)**
Location: Bengaluru, Karnataka.

- Pursuing a 15-week AI and ML internship, gaining hands-on experience in Python -based AI development and Real-world project implementation.
- Working on computer vision, Machine Learning Internship, gaining hands-on experience in Python-based AI Applications using technologies such as Python, React.js, and cloud databases.

PROJECT

AI-Based Skill Gap Analyzer and Personalized Learning Recommendation System

•Developed an AI-powered web application to analyze resumes, extract technical skills, identify skill gaps, and recommend personalized learning paths.
• Extracted and processed resume data using **Python, pdfplumber, spaCy**, and transformer-based NLP models for accurate skill detection.
• Matched user skills with job role requirements and integrated **YouTube API** for learning recommendations.
• Built an interactive **React-based** dashboard with **Chart.js** to visualize skill scores, gaps, analytics, and user progress.

DECLARATION

I hereby declare that the information furnished above is true to my knowledge.
